

MFPL Group Leader

Ao. Univ. Prof. Dr. Andreas Hartig

Andreas Hartig received his PhD in Chemistry from the University of Vienna in 1979. Postdoctoral years at the NIH, Bethesda, USA, at Rutgers University, Piscataway, USA, and in Vienna at the Department of Biochemistry with the late Prof. Dr. Helmut Ruis, stimulated his interest in cellular and molecular biology of yeast. Since 1986 he is member of the faculty at the Department of Biochemistry.

The main research interests of A. Hartig are the biogenesis of peroxisomes and the translocation of proteins and metabolites across membranes.
